

# CAREER RESUME

Your ability to gain an interview for a position hinges upon the quality of your written application. This is an opportunity to demonstrate that you have the required skills, knowledge, abilities and qualifications for the position.

*It is essential to tailor each resume for each position.*

## MARKET YOURSELF

Your resume is a marketing tool. This is an opportunity to highlight your unique selling points to an employer.

Tailoring your resume for every job will emphasise your strengths as they relate to each job and match your skills and abilities accordingly. Research the organisation and the position to determine what the employer is looking for.

## HEADINGS

There are no set headings for a resume, although there are common headings used. Decide which headings best promote you and order them dependent on your background, experience and the position requirements. Always list dates and experiences in chronological order – the most recent first!

### Personal Details

- Name, Location (Suburb, State), telephone, email
- LinkedIn URL (ensure your LinkedIn is up to date and hyperlinked)

### Education

Current and previous tertiary qualifications with relevant achievements. Only list high school if you are a recent school leaver.

### Key Skills

Highlighting 3-4 key skills using sub-headings allows the reader to identify the skills you have and if they are relevant. Ensure you state how you demonstrate each skill in 1-2 lines.

### Employment History

State your responsibilities; use dot points to state what your tasks were, ensuring they are relevant and tailored to the position.

### Professional or Industry Experience

This section is relevant for students who have had a placement, internship or industry experience as part of their degree. Use dot points to list your responsibilities, achievements, duties, projects...

### Professional Memberships

Include memberships to professional or industry bodies. This highlights your industry currency.

### Referees (optional)

Recommended 2 referees – supervisor, manager, or academic if you don't have work related referees. Avoid personal referees. Always obtain their permission first and keep them informed of the progress.

## OPTIONAL HEADINGS

Profile or Career Objective	Publications
Industry Specific Skills	Certificates and Licences
Professional Development	Interests
Voluntary Work	Referees
Co-curricular Activities	

## LANGUAGE

Use professional vocabulary and industry language. Take tips from the language used in the job advertisement! Action verbs assist in highlighting your skills e.g. negotiated, finalised, optimised and created

## HYPERLINKS

When referring to any online evidence or portfolio ensure to include a simple hyperlink attached to one word – do not include the full URL.

## DO

- Thoroughly research the organisation and position to determine what the employer is looking for
- Tailor to the job description using key words
- Be clear, concise and truthful
- Generally 2 pages in length
- Use a simple and consistent layout – font, size, bullet points, tab spacing

## AVOID

- Spelling and grammatical errors
- Writing jargon/ slang
- Clipart or photographs
- Borders or fancy font
- Writing long paragraphs of text
- Including tables
- Copying a resume sample word for word

# SARAH ROBERTS

A: North Wollongong, NSW  
LI: <http://aullinkedin.com/in/sarahroberts>

PH: 0412 001 001  
E: [sr@uowmail.edu.au](mailto:sr@uowmail.edu.au)

## EDUCATION

### Bachelor of Computer Science (Digital Systems Security)

XXXX – XXXX

University of Wollongong

*Achievements: Distinction Average, UOWx Award*

### High School Certificate

XXXX

ABC High School, Wollongong

*Achievements: University Entrance Score: 92*

## KEY SKILLS

### Technical

- Strong academic understanding of network security, data structures and algorithms.
- Competency in programming languages
  - C++ & JavaScript (3 months applied experience)
  - Java (Eclipse and Android Studio) - highly proficient
- Competency in Operating Systems: Unix/Linux, Windows and Mac
- Competency in Networking: Distributed systems and TCP/IP

### Communication & Teamwork

- Well-developed written, verbal and interpersonal communication through Pactera Technology summer internship role and through University assignments, giving presentations and hospitality/retail employment
- Able to understand and explain concepts to a diverse audience and work diligently toward team goals, honed through UOW Peer Mentoring program and Treasurer role with UOW Software Society

### Problem Solving & Analysis

- Received High Distinction grades for System Security and Cryptography subjects in degree
- Demonstrated ability to compare and contrast information from a variety of sources and draw conclusions in various assessment tasks while maintaining a distinction average

## RELEVANT INDUSTRY EXPERIENCE

### NETWORK SECURITY (INTERNSHIP)

XXXX- XXXX

Pactera Technology Australia, Innovation Campus, Wollongong, NSW

- Undertook 12 weeks professional experience on the Pactera Vacation Program 2018-19 and shadowed network security specialist in the XYZpower Security team.
- Assisted with design and development of digital security systems for file and data protection
- Completed a test data mining project using object oriented analysis and data compression

### NETWORK SUPPORT INTERNSHIP

XXXX

Westcon Group, St Leonards, NSW

- Undertook 4 weeks professional experience toward undergraduate degree
- Tested Cisco routers and switches for ISPs
- Updated technical documents including project diagrams, configurations and guides
- Developed excellent rapport with all levels of network team, and enjoyed their mentoring

TIP - Your relevant industry experience is a major selling point. What key tasks were your responsible for and do they align with your key skills? Did you receive positive feedback?

If you have not completed an internship or do not have relevant work experience/employment yet, have you completed any academic projects that were quite similar to the requirements of the job?

## EMPLOYMENT

This is a generalised snapshot into the components of a graduate resume. This template is designed under the assumption that you are looking for degree-related employment such as graduate programs and entry-level work.

**This sample resume is intended as a GUIDE ONLY.**

Each resume and application should be tailored to highlight your own experiences and background, as well as the position you are applying for.

**NOTE:** Material and information made available through this publication is intended to be used as a guide and to provide general information in summary form. It is solely your responsibility to evaluate and check the accuracy of the information provided.

Remember that you may need to:

- Change the order of headings
- Change the wording of the headings
- Leave out sections that are not relevant to you **or**
- Add new sections that are relevant to you

Employers may also state specifications for job applications, which you should **always** meet. Specifications are not limited to, but can include:

- Length of the resume
- Content required
- Number and type of referees required
- Attachments, such as academic transcript
